中国生物物理学会是中国生物物理学工作者自愿组成的学术性社会团体，是中国科学技术协会的团体会员。学会宗旨是通过组织学术交流活动，科普教育和编辑出版刊物，促进生物物理学的发展，为国家经济建设和全民科学素质的提高服务。

1979年11月中国科协主席团批准成立中国生物物理学会，著名生物学家贝时璋任第一届理事长和第二届—第八届名誉理事长。现任理事长为徐涛院士，梁栋材院士、饶子和院士任名誉理事长。中国生物物理学会现有会员12000余名，每年召开一次全国生物物理学术大会，每四年召开一次理事会换届大会。

学会下设23个分会、5个专业委员会及12个工作委员会：分子生物物理分会、膜生物学会、自由基生物学与自由基医学分会、环境与辐射生物物理分会、代谢生物学会、冷冻电子显微学分会、单分子生物学会、临床分子诊断分会、听觉、言语和交流研究分会、临床罕见代谢病分会、衰老生物学会、纳米生物学会、生物磁共振分会、代谢组学分会、生物微量元素分会、体育医学分会、神经生物物理分会、表型组学分会、低氧与健康科学分会、纳米酶分会、生物大分子相分离与相变分会、运动科学分会、材料生物学与智能诊疗技术分会；生物信息学与理论生物物理专业委员会、光生物物理专业委员会、生物力学与生物流变学专业委员会、现代生物物理技术与方法专业委员会、分子影像学专业委员会；科普教育工作委员会、青年工作委员会、名词审定工作委员会、女科学家分会、国际事务工作委员会、奖励工作委员会、继续教育工作委员会、学术工作委员会、学会发展与规划工作委员会、组织建设工作委员会、会员工作委员会、宣传与推广工作委员会。

学会主办3个学术期刊：与高等教育出版社和中国科学院北京生命科学研究院联合主办的英文期刊 *Protein & Cell*（主编：饶子和）（SCI影响因子7.575），与中国科学院生物物理研究所共同主办的 *Biophysics Reports*（生物物理学报）（主编：徐涛），《生物化学与生物物理进展》（主编：王大成）。

为鼓励在生物物理学领域做出突出贡献的科学家，学会自2009年起设立了“贝时璋奖”和“贝时璋青年生物物理学家奖”，奖项每两年颁发一次。2013年增设“贝时璋国际奖”。

1984年7月中国生物物理学会正式加入了国际纯粹与应用生物物理联合会 (International Union for Pure and Applied Biophysics, 简称 IUPAB), 并于 2011 年在北京成功举办了第 17 届国际生物物理大会, 两千人与会。饶子和理事长担任大会主席, 并成功当选 IUPAB 主席 (2014-2017)。2015 年 5 月在杭州成功举办第 9 届亚洲生物物理大会, 阎锡蕴副理事长担任大会主席, 并成功当选亚洲生物物理协会 (Asian Biophysics Association, 简称 ABA) 主席。2015 年 10 月, 中国科协的倡导和支持下, 中国生物物理学会联合生命科学领域全国性一级学会共同成立了中国科协生命科学学会联合体, 饶子和院士担任首届轮值主席, 联合体成员学会目前已经发展到 22 家。

The Biophysical Society of China (BSC), a constituent society of the China Association for Science and Technology, is a nongovernmental organization for Chinese biophysicists with an aim to promote scientific exchange and development through organizing academic activities and editing relevant publications.

The BSC was founded in November 1979. Prof. Shizhang Bei, a renowned biologist, was the first president of BSC. Prof. Tao XU is the current president. At present, the BSC has over 12000 members. It holds the Biophysical Conference of China each year. The BSC council is elected every 4 years. It plays an important role in promoting economic and social development, together with human health, in China.

The BSC is comprised of 23 subsocieties, 5 academic committees and 12 working committees, namely: Molecular Biophysics, Membrane Biophysics, Free Radical Biology & Free Radical Medicine, Radiation & Environmental Biophysics, Lipid metabolism & bioenergetics, Cryo-EM, Single Molecular Biology, Clinical Molecular Diagnostic, Auditory, Speech and Communication Research, Clinical Rare Metabolic Diseases, Aging Biology, Nanobiology, Biomagnetic Resonance, Metabolomics, Bio-Micro Element, Sports Medicine, Phenotype Group of Credits, Hypoxia and Health Sciences, Nanoenzymes, Biomacromolecule Phase Separation and Phase Change, Sports Sciences, Bioinformatics & Theoretical Biophysics, Optical Biophysics, Biological Mechanics & Biological Rheology, Modern Biophysical Technology & Methods, Molecular Imaging, Science Education Committee, Youth Committee, Terminology Review Committee, Women in Science, the International Affairs Committee, Reward Committee, Continuing Education Committee, Academic Committee, Development and Planning Committee, Organizing Construction Committee, Members Committee, Publicity and Promotion Committee.

The Biophysical Society of China publishes the journal "Biophysics Reports" (Chief-Editor: Tao Xu), and sponsors the "Protein & Cell" (Chief-Editor: Zihao Rao) with Higher Education Press and Beijing Institute of Life Science, Chinese Academy of Sciences. It also sponsors the journal "Progress in Biochemistry and Biophysics" (Chief-Editor: Dacheng Wang) together with the Institute of Biophysics, Chinese Academy of Sciences.

Since 2009, The Biophysical Society of China has established the "Shizhang Bei Award" and

"Shizhang Bei Young Biophysicist Award", the first national prize for biophysics in China, which is presented every two years.

In 1984, the Biophysical Society of China joined the International Union for Pure and Applied Biophysics (IUPAB). The 17th International Biophysics Congress was held in Beijing in 2011. Professor Zihé Rao was successfully elected as IUPAB president (2014-2017) at this meeting. The 9th Asian Biophysics Association (ABA) Congress was held in Hangzhou in 2015. Professor Xiyun Yan was successfully elected as ABA president (2015-2017). In 2015, the Biophysical Society of China associated with the other 17 societies started the China Union of Life Science Societies. Professor Zihé Rao is the president of the presidium (2015-2016).

BSC have built a long-term strategic partnership on the academic connection, membership reciprocity and other issues with the ASCB, such as promoting young scientists. In 2018, 10 best poster winners of BSC Annual Meeting obtained the sponsorship for ASCB annual meeting in United States. Based on a long-term annual bilateral session, BSC and BSJ established a platform of cutting-edge scientific issues for scientists on both sides. During the ABA meeting in Melbourne in 2018, BSC and the Australian Biophysical Society officially discussed the collaboration modes and decided to hold the first Sino-Australian joint session at the 2019 BSC Annual Meeting. Furthermore, BSC and the American Society of Biochemical and Molecular Biology (ASBMB) initiated the Epigenetic Regulation Symposium that will be held once a year and hosted alternately by BSC and ASBMB.

With the enhanced level of international collaboration, the Biophysical Society of China will continuously make efforts on exploring in-depth cooperation with more national societies to promote the prosperity and development of life sciences around the world.
